Information about Copyrighted Content

Some instruments administered for studies archived with ICPSR may contain in whole or substantially in part contents from copyrighted instruments. Reproductions of the instruments are provided as documentation for the analysis of the data associated with this collection. Restrictions on "fair use" apply to all copyrighted content. NOTICE

WARNING CONCERNING COPYRIGHT RESTRICTIONS

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted material. Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement.

MIDUS 2 Self-Administered Questionnaire

Questionnaire 1

This is the first of two booklets we would like you to complete. It includes several categories of questions that will help us understand aspects about your life, like your health and your general feelings about life. There are no right or wrong answers to any of these questions.

This booklet has several different kinds of questions that appear in different formats. We may ask you to circle a number, check a box, or write in an answer in the space provided. Below are examples of how to do this.

Circle the appropriate number.

1 2 3 4 5

Check one.

☐ No

OR

☒ Yes

☐ No

We realize that there are many questions to answer. If at any time you find yourself getting tired, we recommend that you take a break for a while and then come back to it. Please be sure that you choose the response that comes closest to how you feel. Be sure to look at the different answer choices before answering.

Some of the questions may seem redundant to you. There are other questions that may require you to look up information. Please bear with us through these questions and answer them as best you can. We need all of the information to best understand differences among the many people in our study.

Finally, we prefer that you answer this questionnaire on your own, without input from anyone else.

Thank you so much for contributing your time to complete this booklet! It is because of people like you that this national study has been possible.

MIDUS 2 Self-Administered Questionnaire

This booklet has several different kinds of questions that appear in different formats. We may ask you to circle a number, check a box, or write in an answer in the space provided. Below are examples of how to do this.

We realize that there are many questions to answer. If at any time you find yourself getting tired, we recommend that you take a break for a while and then come back to it. Please be sure that you choose the response that comes closest to how you feel. Be sure to look at the different answer choices before answering.

Some of the questions may seem redundant to you. There are other questions that may require you to look up information. Please bear with us through these questions and answer them as best you can. We need all of the information to best understand differences among the many people in our study.

Finally, we prefer that you answer this questionnaire on your own, without input from anyone else.

Thank you so much for contributing your time to complete this booklet! It is because of people like you that this national study has been possible.
